Monday-Friday, 8 AM to 8 PM ET

IMPORTANT SAFETY INFORMATION

Before you receive RELYVRIO, tell your doctor about all of your medical conditions, including if you:

- Have pancreas, liver, or intestinal problems
- Have heart failure, including congestive heart failure

For more information about RELYVRIO, please see additional Important Safety Information throughout and the full [Prescribing Information](#) and [Medication Guide](#).

 **relyvrioTM**
(sodium phenylbutyrate and taurursodiol) for oral suspension 3 g/1 g

Compassionate support from a caring team

You'll get to know the ACT™ team as people who are deeply dedicated to your well-being, providing personalized support throughout your treatment journey.

ACT Care Support Specialists

ACT Care Coordinators

ACT Care Educators

ACT Care Support Specialists

- Committed to answering your questions by phone before you are enrolled in ACT
- Help you get enrolled in the program

Your ACT Care Coordinator

- Will be paired with you throughout your treatment journey
- Available by phone or email, once you are enrolled in ACT
- An experienced, full-time Amylyx employee
- Dedicated to providing the highest levels of customer service

ACT Care Educators

- Registered nurses who can provide additional education about ALS and RELYVRIO™ (sodium phenylbutyrate and taurursodiol)*

*Your doctor is always your best source for treatment information.

Your ACT Care Coordinator is your primary source for one-on-one support

For more information about RELYVRIO, please see additional Important Safety Information throughout and the full [Prescribing Information and Medication Guide](#).

A wide range of support

Through your dedicated ACT Care Coordinator, you will be connected with the following support and resources.

Reimbursement & Insurance Support
We can help you understand your insurance coverage and benefits for RELYVRIO.

Financial Assistance, if Eligible
We can provide resources for access support through our \$0 Co-Pay Program,* Interim Access Program, and Patient Assistance Program. Talk to your ACT Care Coordinator or visit AmylyxCareTeam.com to learn more.

ALS Education
Our team is here to support you with learning more about ALS and your treatment. Your doctor is always your best source for treatment information.

Partnership With Specialty Pharmacies
Because RELYVRIO is a specialty medication, it is only available through specialty pharmacies. We'll partner with these facilities to coordinate delivery to your home. To learn more, visit AmylyxCareTeam.com.

Continuous Support
We'll help you get started on RELYVRIO treatment and keep supporting you as you continue on it.

Call ACT Today

Monday-Friday, 8 AM to 8 PM ET

*Out-of-pocket costs related to medication, appointments, evaluations, testing, or other related services are not covered by the RELYVRIO Co-Pay Program. The RELYVRIO Co-Pay Program is not available for prescriptions purchased under Medicare, Medicaid, TRICARE, or other federal- and state-funded programs. Amylyx reserves the right to amend or terminate the Program at any time without notice. Co-pay amounts after applying co-pay assistance may depend on the individual's insurance plan and may vary. The RELYVRIO Co-Pay Program is intended to help individuals afford RELYVRIO.

IMPORTANT SAFETY INFORMATION (continued)
Before you receive RELYVRIO, tell your doctor about all of your medical conditions, including if you:

- Have high blood pressure
- Have kidney problems

Patient Support Services

IMPORTANT SAFETY INFORMATION (continued)

Before you receive RELYVRIO, tell your doctor about all of your medical conditions, including if you:

- Are pregnant or plan to become pregnant. It is not known if RELYVRIO will harm your unborn baby
- Are breastfeeding or plan to breastfeed. It is not known if RELYVRIO passes into your breast milk. You and your doctor should decide the best way to feed your baby

Tell your doctor about all the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements and any taurursodiol products, such as taurursodeoxycholic acid (TUDCA).

RELYVRIO may affect the way other medicines work, and other medicines may affect how RELYVRIO works.

What are the possible side effects of RELYVRIO?

RELYVRIO may cause serious side effects, including:

- **Changes in bile acid levels.** RELYVRIO may increase bile acid levels and cause worsening diarrhea if you already have problems with your liver, bile ducts, or pancreas. Your doctor should monitor you for

these side effects. Some disorders of the pancreas, bile ducts, or intestines may also make it harder to absorb RELYVRIO

- **Salt (sodium) retention.** RELYVRIO contains a high amount of salt. For people who are sensitive to salt intake, such as people with heart failure, high blood pressure, or kidney problems, limit the amount of salt you eat and drink. Talk to your doctor about the total amount of daily salt that is right for you. Your doctor will monitor you for signs and symptoms of salt retention during your treatment with RELYVRIO

The most common side effects of RELYVRIO include diarrhea, abdominal pain, nausea, and upper respiratory tract infection.

Tell your doctor if you have any side effect that bothers you or that does not go away. These are not all the possible side effects of RELYVRIO. Call your doctor for medical advice about side effects.

You may report side effects to FDA at [1-800-FDA-1088](tel:1-800-FDA-1088).

INDICATION

RELYVRIO is indicated for the treatment of amyotrophic lateral sclerosis (ALS) in adults.

For more information about RELYVRIO, please see the full [Prescribing Information and Medication Guide](#).
